

Camila Trimaran

Camila Trimaran 8 Days Itinerary A

Day	Activities
1	Sullivan Bay: Upon arrival to the airport in Baltra Island, you will be transferred to Camila Trimaran at the bay. After settling in the yacht and lunch, your first visit will be to Sullivan Bay at Santiago Island, a recently formed lava field, where you will see species like sea lions and sally light foot crabs, and various species of shorebirds. You can also swim and snorkel from the beach. End of the day and dinner onboard.
2	Vicente Roca Point and Espinosa Point: First activity of the day will be taking a dinghy ride to Vicente Roca Point on Isabela Island, comprised of two separate coves and where you will see spectacular sea life. You can also see penguins, blue-footed boobies and nazca boobies. During the afternoon, head to Espinosa Point site rich for its wildlife, like flightless cormorant, sea lions, penguins, crabs, herons and more, living along with the mangrove forest, native to this place. End of the day and dinner onboard.
3	Tagus Cove and Urbina Bay: After breakfast, the Trimaran will land at Tagus Cove, located west of Darwin Volcano on Isabela Island which used to be a favorite hiding spot for pirates and whalers, and is now a wonderful place to see mangroves and the native species that inhabit there. In the afternoon, you will visit Urbina Bay one of the recent examples of geological volcanic uplift in the Galapagos where seasonally is a nesting area for many tortoises, Galapagos Penguins, flightless cormorants and brown pelicans. This is also a good place for snorkeling.
4	Elizabeth Bay and Moreno Point: Early in the morning, you will head to Elizabeth Bay, the only place where old tropical mangrove forest grows and penguins inhabit them, which you will visit by dinghy ride. After lunch, you will visit Moreno Point, which main attraction are the coast lagoons where white tipped sharks can be seen, and the panoramic views of Sierra Negra and Cerro Azul from the tallest spot on this place, which cannot be missed. End of the day and dinner onboard the trimaran.

Camila Trimaran 8 Days Itinerary A

Day	Activities
5	Charles Darwin Station and Santa Cruz Highlands: At the beginning of this day, the yacht will take you to Santa Cruz Island, where you will visit Charles Darwin Research Station. You will learn about the protection and conservation of the island, and visit the Breeding and Rearing Centre for young tortoises and adult Galapagos tortoises in captivity. After this activity, you will visit Santa Cruz Highlands, where you will be able to see giant Galapagos Tortoises in their natural habitat, along with bird species such as mockingbirds, finches or flycatchers. End of the day and dinner onboard the trimaran.
6	Santa Fe Island and South Plaza: Early in the morning, you will visit Santa Fe Island which is home to the endemic Santa Fe Iguana, and where you can see flora like Opuntia and Palo Santo Trees. You can hike to a scenic viewpoint here, or just rest at the beach and relax. During the afternoon, head to South Plaza Island, where you will see a colony of land iguanas, marine iguanas and hybrid of these species coexisting here. There is also a great colony of sea lions. End of the day and dinner onboard.
7	Cormorant Point and Post Office Bay: Early in the morning, your first stop will be Post Office bay, that was established by British whalers in past centuries to send letters to and from England, and even today, visitors have the opportunity to post letters of their own. If the weather is good you may also have the opportunity to snorkel from the beach. During the afternoon, head to Cormorant Point, where you will be welcomed by a small Galapagos sea lion colony. You will also visit green sand beach that contains olivine crystal, and a white coral sand beach. You can also practice deep water snorkeling at Devil's Crown. End of the day and dinner onboard.
8	San Cristobal Interpretation Center: After breakfast, the yacht will land at San Cristobal Island, and once you disembark you will visit the Interpretation Center, where you will learn about the Natural History of the Islands, as well as its colonization and efforts that have been made to preserve the species that inhabit the archipelago. After this activity you will be transferred to San Cristobal Airport and take your flight back to the continent.
